Gentlemen:

Please find enclosed a copy of three potential chemical-specific Applicable or Relevant and Appropriate Requirement/To Be Considered (ARAR/TBC) tables, including a table identifying federal and state ground water standards, one identifying federal surface water standards, and another identifying state surface water standards. Also enclosed is a package summarizing the application of ARAR's versus TBCs for federal and state standards and detailing the rationale applied for designating the ARAR/TBC classifications for all potential RFP chemical-specific cleanup standards. This documentation is submitted for your consideration in advance of a meeting scheduled for November 19, 1991, at 2:30 P.M. to discuss ARARs.

Any questions should be referred to Rich Schassburger on 966-4888.

Sincerely,

David P. Simonson
